Gerald Corkin, Chairman for Marquette Board of County Commissioners addressed the Board in regards to passenger Mr. Tasson. Mr. Tasson has contacted Marquette County in regards to transportation issues he was having from Negaunee into Marquette. Long waiting periods getting picked up from therapy. This is causing medication issues when he has to wait extended periods of time. I am asking for your consideration with this issue and not just for him but for all handicapped and disabled persons. Any time

4. Marquette County Transportation Issues for Residents.

Joseph Derocha, Marquette County Commissioner District 2 addressed the Board. I am here today in regards to a call that was received from a passenger Mr. Tasson. The letter received from Mr. Tasson was never forwarded to Marq-Tran. The most troubling part is the way he was treated as he conveyed to me. When I bring an issue up with Marq-Tran I expect the answer we will get is we will look into our policies and see where we can do better. That is not the answer we get. Instead we get an answer that our policies are fine. This troubles me. I think we can all do better. I am asking this Board to find reasonable solutions. This individual also had an issue with the phone system with nobody answering. He would leave a message and not get a return call until hours later.

Nankervis commented that we can always improve in certain areas. However, passengers also need to be lenient when calling into schedule rides.

Klein commented that she did try and work with Mr. Tasson. She tried to arrange a ride to fit his schedule. He does not want to ride with other passengers so he chooses to schedule a later ride. I think we are trying to serve him the best we can as well as all of the other passengers in Marquette County. When we do get problems and issues we do take care of them.

Derocha is asking for consideration from this Board to try and solve this issue.

Nankervis commented that we have treated him very well and we try and treat all passengers the same way. This passenger also needs to be reasonable when scheduling a ride.

Boyd made a motion that based on listening to the concerns this evening we will undertake a review of our policies to attempt to make improvements and ask for resources to make these improvements we may have and report back in two months. Tollefson supported. Unanimously approved.

5. PR Media

Tollefson discussed his concern with advertising. I would like the Board to have a motion for every three months that Klein gives us a report on her public speaking on radios and TV. This will give us a better idea of what we are doing and ideas on what we can improve on. I would like to pursue what we can do that will not cost us money. Boyd made a motion to ask the Executive Director to report quarterly in regards to public relations and communications. Tollefson supported. Unanimously approved.

OLD OR NEW BUSINESS:

Board Member Comments:

Connors mentioned that Disable the Label will be at the Mall again this year.

Bosio commented that he received a call from Mr. Tasson and he went and met with him for over an hour. This passenger needs to be reasonable and I did relay that to him. He wants to ride alone and have other passengers wear masks. I wanted to diffuse TV6 from coming here tonight.

Boyd commented that he likes the idea of a five minute rule when being addressed with public comment.

Boyd inquired if we have been involved with the Presque Avenue project? This will be a major revamp on that stretch of road.

Boyd was approved by a person at the University in regards to the mailboxes across the street from the Transfer Station. They were blocked by the people at the mailboxes and the busses. They wanted to know why the busses parked their? Klein commented that the busses are parking in front of the Jansen House not next to the mail boxes.

4. Wellness Information:

Klein reported that the staff gathered information in regards to the request made by Board Member Boyd into health and wellness. We came up with two suggestions we would like to present. 1-MD Live Within the Board Packet was a packet of information provided to us from VAST and 44 North. This benefit would allow all employees access to a Doctor 24 hours a day 7 days a week via video conference from an App. The employee would be able to speak with a Dr. for illnesses such as ear pain, sore throats,

rash, pink eye, cough etc. The cost would be zero to the employee. If needed the Doctor would call in a prescription to a local Pharmacy for the employee. The cost for this program would be \$6.50 per employee per month paid for by Marquette County Transit Authority. The staff believes that this would be a great benefit to all of our employees. The annual cost for this benefit would be approximately \$4,680 annually. 44North would administer the program but we would still work directly with VAST.

2-Perform for Life Gym Klein reported that the staff had a meeting with a representative from Perform For Life Gym located on Washington Street in Marquette. This facility can provide an assessment to each employee as well as a personal one on one assessment for workout programs. We would like to see Marq-Tran pay \$20 per month for each employee that would like to join as well as the \$60 assessment fee twice per year. If all employees were to join and utilize the assessments the approximate cost would be \$16,500.00. We feel offering our employees healthy options will benefit Marq-Tran and our employees.

5. Transportation Request:

Klein reported that Marq-Tran received a request from Donald Anderson to bring Veterans from the Gwinn VFW to Ontonagon, MI for the burial of Lowell Earl Valley who was killed in action on December 7th, 1941 while serving on the USS Oklahoma during Pearl Harbor. Klein replied that it would take approximately 9 hours and including fuel would cost \$690.00 for the day. Tollefson commented that he would like Marq-Tran to provide the transportation but believes that we should not do this at zero cost. Tollefson commented that they should look into getting grants to pay for this transportation or that they should cover half the cost.

Executive Director Klein passed around a Letter from the Editor posted in the paper. It was a nice letter written in regards to Marq-Tran and the service they provide.

Board Member Comments:

Quayle inquired about the Accident Review Board notes that state we do not have to transport faulty equipment. Are you talking about central dispatch at the State Police Post? Klein replied, yes I believe so. Quayle replied that you better look into this. I am not certain that this is a call that you would make to central dispatch.

LaRue inquired if Richer had ever looked into bus stop signs? Richer replied that two years ago he spoke with Cook sign and the City of Marquette. City would not approve putting any signs on poles or trees.

Boyd commented that there was a write up in the Mining Journal about Marq-Tran that was very nice.

Boyd commented that the Negaunee shuttle is down 90%. Staff should have some guidelines for the Board when there is such a large drop in service. Richer replied that about three years ago we dropped that route down to one day a week which is why you see the large decline.

Boyd inquired about the Walgreen drive through intersection. I requested contacting the Salvation Army as a pickup center at the last Board meeting. I made a suggestion and it did not come back to the Board that anything was followed up on. Maybe suggestions are not the way to go. When a Board member has a thought about something that should be looked into how formal should that be? Richer commented that about three years ago when we changed routes I believe it was at an Operations Committee that it was decided that we were no longer going into the Salvation Army. This was because they were not keeping the parking lot plowed and our busses were getting stuck and our fixed routes were being delayed sometimes as long as ten to fifteen minutes. Boyd commented that this sounds like a Management thing to me. We have plow services here so if we had to we could have it plowed. Tollefson commented that a shelter at the Salvation Army makes more sense. LaRue commented that most of the people using the Salvation Army they are driving their own cars not taking the bus. You should put it where the mass people are. Nankervis commented that he does not agree with having our plows down there plowing out the Salvation Army parking lot.

Tollefson was disappointed about the website. This has been an issue that has been brought up and this is not something we should be hearing about during public comment.

LaRue inquired about the cost of a shelter? Klein commented 5-10K per shelter.
