

## Formal RFI Questions for RFP 2021-1

- Q) How can an appointment be set up to view the existing wash bay ?  
R) 9-3 M-F
- Q) Who is the current manufacturer of the wash system ?  
R) SSI Corp
- Q) Please supply any DWG of the wash bay with underground plumbing.  
R) On Site
- Q) Will there be a pre-bid meeting ?  
R) No
- Q) What is the current diameter of the water line and pressure in the wash bay  
R) 1", unknown pressure
- Q) What is the current amps and voltage in the wash bay that can be used with the new system?  
R) 480V/ 30 amp
- Q) Can the current slope and oil water separator handle the volume of a touchless system (75HP) ?  
R) Confirmed
- Q) What is the oil water separator/sand tramp capacity ?  
R) 1,000+
- Q) What is the PSI and GPM of the specified 75HP ?  
R) Per Specs
- Q) Please confirm that a reclaim system is not in this project.  
R) Confirmed
- Q) Please confirm that this project is certified payroll/prevaling wage  
R) Not Applicable
- Q) Please confirm that this project needs to meet Buy America/ FTA regulations.  
R) Confirmed
- Q) Please confirm that a bid bond is required with the bid.  
R) Not Applicable
- Q) Does the bidder need to hold a Michigan contractor's license or simply need to hire license sub-contractors.  
R) Michigan licensed sub-contractors required
- Q) What is the configuration of your 36 vehicle fleet? How many vehicles will be washed back to back at one time?  
R) Medium Duty Buses 28'-32'
- Q) Can the bidder provide, as an option, a different configuration then what is specified ?  
R) Specifications as provided are the minimum
- Q) Will the transit authority make public the estimated (range) budget for this project ?  
R) No
- Q) The specifications call for a (1) one year parts and labor however the price proposal states (3) three years. Please explain.  
R) Specs require a 1 year parts & labor warranty. Under price Proposal we ask to divulge any costs associated with tech support or any required maintenance by Vendor for a 3 year period.
- Q) Please explain payment terms. Is the transit authority stating that no payment will be processed until the system is up and running and from that point the invoice will take a minimum to 45 days to be paid? It is standard practice that progressive payments are included with FTA funded project. Typically, an invoice is sent once the shop DWG's are approved, then an invoice when the equipment is shipped and a final 5%-10% hold back until the system is signed off. The contractor has to pay his sub's within 30 days for FTA funded projects.  
R) Payment terms are as specified.
- Q) List of Items, Schedule of Requirements, Scope of Work, Terms of Reference, Bill of Materials required.  
R) As stated in RFP
- Q) Soft Copy of the Tender Document through email.  
R) Not Applicable
- Q) Names of countries that will be eligible to participate in this tender.  
R) Any that can meet Buy American requirements.

Q) Information about the Tendering Procedure and Guidelines

R) As stated in RFP

Q) Estimated Budget for this Purchase

R) Not Applicable

Q) Any Extension of Bidding Deadline?

R) No

Q) Any Addendum or Pre Bid meeting Minutes?

R) No pre-bid meeting will be offered.

Q) It is my understanding that this project is funded by an FTA Grant. If this is correct then a bid bond is required to be supplied with the bid. Prevailing wage/ Certified pay roll is required due to the Davis-Bacon Act for FTA funded projects. Please supply the documentation from the FTA stating that this is not applicable for your grant.

R) All requirements are as stated in our RFP.

Q) It is standard practice to make any existing DWG available to the bidders via the web. Would it be possible to copy them and put in the second addendum ?

R) Available on site only, during business hours.

Q ) If only 30 amps are available. Where is the location to bring additional amps to the wash bay.

S) Electrical supply room approximately 150' lineal feet away.

Q) Thank you for your response "What is the configuration of your 36 vehicle fleet? How many vehicles will be washed back to back at one time? Medium Duty Buses 28'-32'. However the reason I asked how many vehicles will be washed back to back at one time is to determine holding tank size. Please supply this information.

R) Minimum of 5 back to back maximum of 10.

Q ) Has the transit authority seen the specified system in operation. If yes, who is that manufacturer.

R) No particular system, only chosen specs.

Q) It is acceptable for the bus wash manufacturer or distributor to mandate the transit authority to buy there chemical or the warranty will be voided ?

R) All requirements are as stated in our RFP.

Q) Is there any DBE participation goals in this project ?

R) No

Q) What time is your office open on Sunday April 4th (Easter Sunday) to drop off the RFP information? You had stated in addendum (1) one that this due date is correct.

R) 8-3 Eastern.

Q) To have a clear understanding your organization will not pay any invoice until the equipment is installed and signed off. Then invoice will be paid net 45 days. Please supply the documentation from the FTA stating that this is not applicable for your grant and subcontractors are not required to be paid within 30 days of completion od there work.

R) Payment terms are as per our RFP.

Q) The specifications do not supply the GPM and PSI of the required 75HP pump. It is not in the specifications. Please supply both the GPM and PSI. We would not want to lose the project because we use more or less per the specification's.

R) Determined by bidder.

Q) Will site specific shop DWG's of the equipment layout to include utility run's need to be supplied after the bid for approval prior to manufacturing of the bus wash equipment ? if yes will the electrical and plumbing DWG's need to be stamped by a (PE) engineer registered in Michigan.

R) No requirements outside of RFP specs.
